Project Name: Differential Response Tracking System OCIO Project #: Department: California Department of Social Services Revision Date:	Concept Statement
Description	
Brief description of the proposed project: Develop a system for tracking Differential Response, the three paths of services delivered to data related to families whose child abuse/neglect referral does not rise to the level of requir with a CBO.	
Need Statement	
High Level Functional Requirements: Establich tracking system to capture information such: as referral date, evaluated out date, is services, comments/recommendations. Subsequent referral information would build upon the	
What is Driving This Need?	
Currently, information is not available on those families that were evaluated out and referred services (Path One – Differential Response). Because there is no open case and no CWS in the voluntary services with a CBO. Valid data is needed to support implementing Differential	avolvement, it is difficult to ascertain whether these families obtain

OCIO Project #: Department: California Department of Social Services Benefit Statement Process Improvements (describe the nature of the potents Improvement)	Project Name: Differential Response Tracking System	
Benefit Statement Intangible Benefits Process Improvements (describe the nature of the process improvement): If families are subsequently re-referred to CWS, having a history of service delivery improves CWS ability to adequately address the family's safety and risk factors, protecting children. Tracking recidivism allows for restructuring the collaboation of CWS and CBO services to increase family involvement and success. Although Differential Response is perceived to be beneficial to families as well as improve CWS services and lead to reduced number of placements, data is needed to establish best practice or evidence based practice, opening opportunities for funding for implementation. Other Intangible Benefits: Revenue Generation (describe how revenue will be generated):	OCIO Project #:	Composed Chalamant
